Trinity Center Community Services District General Manager's May 2020 Report

Fire Hydrants

With the help of Pam Augspurger and Ken Reynolds (Knolls water system), I retested all the hydrants that the CSD is responsible for. Flow wasn't measured this year, but the results seemed consistent with previous measurements. There were several new hydrants installed since last testing. There were 4 hydrants with small leaks and 1 with a moderate leak. I will provide a detailed report.

Fire-station remodel activities

We are awaiting the Community Development Block Grant final approval.

Repeater Updates

I sent detailed frequency information to Pete Braga of the Sheriff's office. He indicated that he has a radio technician working on the new system. The May 27 Trinity Journal reported "Sheriff pursues dispatch, 911 system upgrades."

I also emailed details to Sonnie, a Paramedic at TCLS, for upgrading their radios.

Radios and Pagers

I reprogrammed a Motorola handheld radio with the Norwegian parameters.

Miscellaneous

I renewed the on line SAM (System for Award Management) account. There was quite a bit of information that had to be re-entered. Fortunately, I had good notes from last year so it went smoothly. I received the following email confirmation:

The registration for Trinity Center Community Services District / 011147360 / 68DR5 is now active in the U.S. federal government's System for Award Management (SAM).
